

Mattress Size Comparison to American Standards

The size of mattresses in Europe are different than American. We strongly suggest you allow us to send you the high density foam mattress wrapped in quilted cotton cover. You will be sent a fitted mattress sheet with each purchase.

	United States Size	European Size
Twin	39 x 74"	33 1/2" x 78"
Double (Full)	54 x 74"	53 x 78"
Queen	60 x 80"	62 1/2" x 78"

Each Smart Bed Mattress is supported by a wooden slat system housed in a metal bed frame.

This photograph shows the revolving bed support system

The SmartBed mattress is manufactured in Italy of high density foam. It is perfect for a vertically stored murphy bed concept. Each mattress was made for the model you have selected. The sleep engineers at Smart Beds are confident you will be pleased with the comfort of their 6" thick mattress.

Because we recognize the American market considers 'THICKER IS BETTER' we offer an option that is really not necessary. We will double the mattress thickness to 12" for an additional \$775.

Still not convinced of mattress comfort?

Call me in Denver and ask me to send you a 16 x 16" sample block of the mattress for your examination.

I will pay the postage of this sample both ways. To you and from you.
